Computed Tool & Engineering, Inc. Launches New Web-Site

Computed Tool & Engineering, Inc.'s new web-site demonstrates the company's capabilities and allows customers to easily submit a "Request For Quote".

Anaheim, California July 8, 2010 – Computed Tool & Engineering, Inc. is pleased to announce the launch of its new and improved website. This website offers many of the same great features as the previous site; however, Computed Tool & Engineering, Inc. has made a more user-friendly layout as well as an updated look and expanded product and capability description. Additionally, a new section has been added to the web, a "Request For Quote" page. This page allows customer to easily submit Request For Quotations.

About Computed Tool & Engineering, Inc.:

Since 1983, CTE, Inc. has grown into a world-class manufacturing facility. CTE, Inc. is committed to total quality, 100% on-time delivery, excellent customer service, and competitive pricing. CTE, Inc. designs and manufactures stamping dies, prototypes, details; and small and large lot stamped parts.
